

Business Intelligence

Dynamic. Powerful. Data Visualization. High Mobility.

Many organizations are probably aware of the fact that valuable business data exists in their companies, but is not going to recycle in favor of the company by using the valuable data efficiently and appropriately. Moreover, most organizations still stick with unproductive ways to deal with their business data, such as manually repeating the process of data entry in outdated legacy systems and priceless information are hard to be used matching today's business requirements. Most importantly, sharing the latest business information data inside or outside the workplace in a secure environment with the right people at the right time is a crucial issue as well.

To achieve it, you need to develop an ability to analyse these business transformations, trends, requirements, and thus respond to demand-change quickly and smartly. FESA BI is one of the possible solutions to help your organization become agile, adaptable and efficient. It is a highly competitive solution enabling true control and monitoring management, by providing clear, concise results based on data integrated from various data sources and presented in a way that illustrates patterns, trends and problems requiring attentions.

DYNAMIC

USER FRIENDLY

Considering the concept of performance management, the entire operation interface has been designed in a logical manner. It is simple and easy to use which guarantees a minimal learning curve. Beginners with little technological background can easily learn and master every move, the solution also generates a sophisticated report without depending excessive IT support. It is particularly important, as the management does not need to spend extensive hours on training, but user friendliness renders the report consumers self sufficient enough to analyze the data right away through the intuitive user interface.

ULTRA-FAST PROCESSING

Due to its powerful extraction capability, FESA BI has been designed to handle high scalability and flexibility to leverage software / hardware resources to cope with demanding performance during data extraction, transformation and loading data onto analysis report.

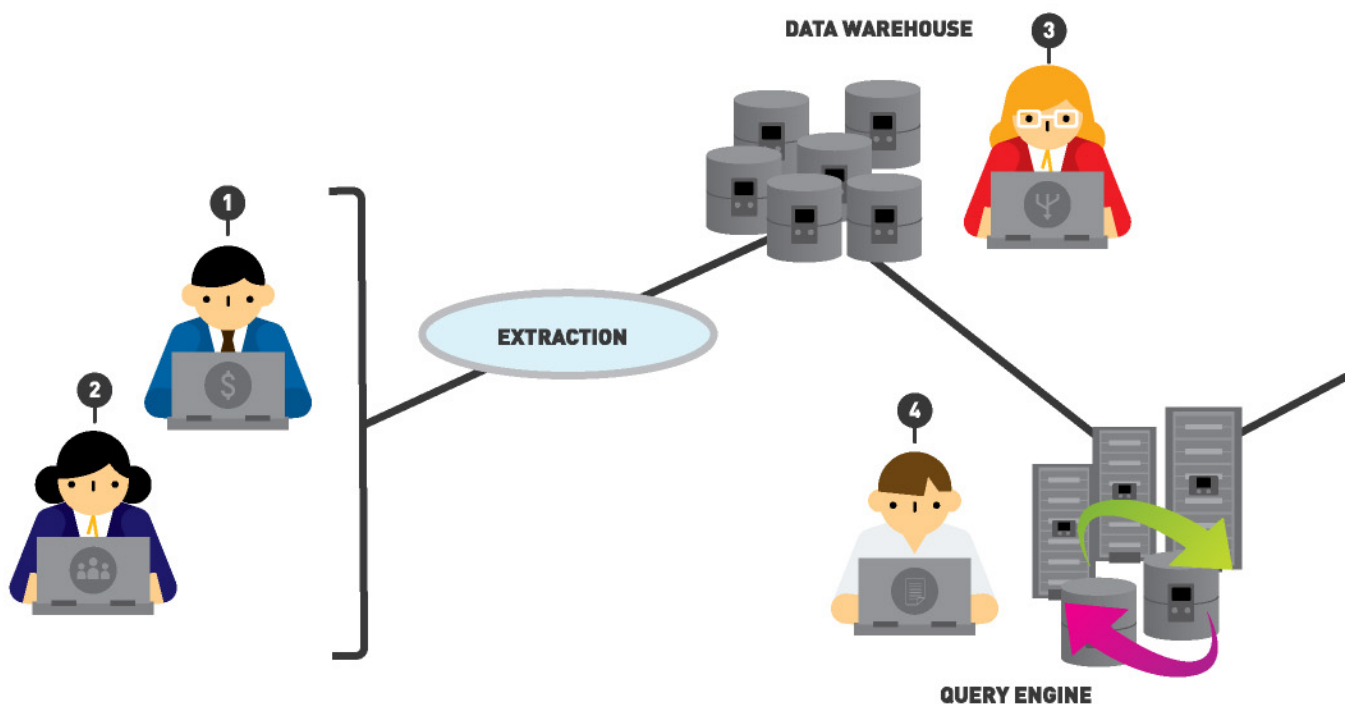

POWERFUL

QUICK ROI

With the easy deployment and strong support team for customer enquiries, FESA BI can be up and running as fast as possible ensuring your organization to get quick return on investment.

GENERIC MULTI-DIMENSIONAL ANALYSIS

The core of FESA BI lies within its analytical power that gives you a multi-dimensional view on the data sources, thus helps examine the business operations from a various viewpoints. Therefore, these analyses can be served as backbone of effective decision making at a time when he/she needs for better and faster decision.

DATA VISUALIZATION

PERSONALIZED CONTENT

The only mission of reports and dashboards is to serve targeted user or user group, so all contents of each analysis instrument have been geared and maintained on role (of management, technical and operations) basis to meet everyone's needs in his/her function in the company.

FLEXIBLE ACCESSIBILITY

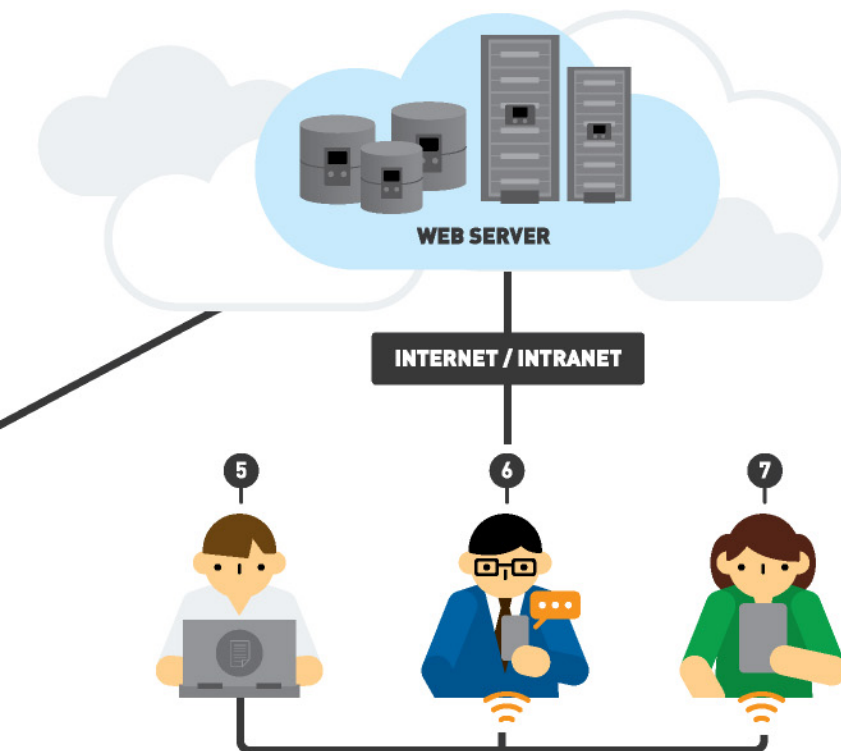

FlexSystem has developed FESA BI solution for user with secure access to real-time information and analyze, and share that information anytime, anywhere via laptop computer, mobile and tablet devices (such as Blackberry, iPhone, iPad etc.).

HIGH MOBILITY

HIGH SECURITY

FESA BI solution provides various security measures to ensure the data security with advanced encryption. Only authorized user has access to relevant information meaning all rights of entry are individual and user dependant and the information are safeguarded down to field level, for example, the user authorizations are established to attain an elaborated protection of enterprise information.

- 1 UPLOAD MULTIPLE DATA SOURCES E.G. FLEXACCOUNT, SQL, ISAM, EXCEL, ACCESS, SYBASE, ORACLE ETC. THROUGH DATA COLLECTION CENTRE DIRECTLY
- 2 SET TASK SCHEDULE OF EXTRACTION AND PROCESSING WITH EASE
- 3 EASY TO RETRIEVE DATA FROM THE MULTI-DIMENSIONAL DATABASE WITH OUTSTANDING PERFORMANCE
- 4 TRANSFORM AND DELIVER VALUABLE DATA FOR REPORTING, QUERY AND ANALYSIS
- 5 EASILY DESIGN YOUR OWN REPORTS ON THE FLY AND SECURELY DISTRIBUTED TO THE OTHERS
- 6 INTERACTIVE DASHBOARD HELPS YOU FILTER, DRAG-N-DROP, MODIFY AND ARRANGE LAYOUT FOR BETTER ANALYSIS AND INSIGHT OF YOUR BUSINESS
- 7 SECURE ACCESS TO REAL-TIME BUSINESS INFORMATION, REPORTS AND ANALYSIS ON-THE-FLY THROUGH YOUR MOBILE DEVICES, SUCH AS IPAD, BLACKBERRY

BI **FESA**
Business
Intelligence

KEY FEATURES

- Support Multiple Data Sources
- In-Memory Processing
- Powerful Reporting Tools
- Generic Multi-Dimensional Analysis
- Customized Data Visualization
- Interactive Dashboard
- Flexible Accessibility
- High Security
- Advanced Data Mobility
